

# Training

## Before you teach with your new software, you may want a little instruction yourself.

When you add interactive solutions from eInstruction™ to your classroom, you also receive the training you need to obtain the most benefit from your purchase. In fact, there are several ways you can learn about eInstruction's products to start getting results quickly.

### Free On-Demand Video Tutorials

Visit our web site at [www.einstruction.com/training](http://www.einstruction.com/training) to view an array of video tutorials designed to help you learn the basics of using your products. You can view the videos at your convenience, 24/7, as many times as you wish.

### Free Online Webinar Courses

Interact with an eInstruction training expert as you learn how to use CPS, **ExamView®**, Workspace and Response at one of our live, online webinar courses. Check our online webinar schedule for dates and times.

### Professional Development Services

In addition to our free training options, we offer customized training designed specifically for you:

#### Customized Webinar – \$275/hour

Schedule an hour-long, customized webinar designed and conducted for you by one of our training experts.

#### Level 1 Product Training – Full Day \$2500

Become proficient with the dynamic features of our software solutions by choosing any combination from our menu of training topics (see list on other side). This package includes:

- Up to six hours of training for 10 participants
- 10 participant workbooks
- 10 flash drives filled with free content
- Trainer travel expenses

#### Level 2 Professional Development – Full Day \$2750

Achieve maximum results by applying your product knowledge to research-based instructional strategies. This package includes up to six hours of professional development for 10 participants, 10 workbooks, as well as trainer travel expenses. Choose from the following courses:

- Formative Assessment in the Classroom
- Using Questions to Facilitate Learning
- Differentiated Instruction and Assessment
- Instruction and Assessment That Works

#### Train-the-Trainer – 3 Day Course \$5000

This three-day class provides participants with the skills, curriculum and materials needed to successfully train their colleagues on CPS or Workspace software. The package includes:

- 10 manuals and flash drives filled with training materials
- Three days of training for 10 participants
- One CPS Trainer Kit (with CPS course only)
- One Interwrite™ SchoolPad (with Workspace course only)
- Trainer travel expenses

\* Certified educational consultants also provide customized consultation services to meet your training needs.
